CHECK OUT THE NEW PATTERN

Do you like cats? I'm not much of a cat person but they hands down take the lead when it comes to cuteness. It's hard not to love these fluffy little furballs with big adorable eyes. I really loved making this chubby cat that i couldn't stop at just one. Let's see how to make these adorable chubby cats.

Materials needed:

- Acrylic yarn in pink and lavender colour (i have used 4ply/ sport weight acrylic yarn).

- Crochet hook according to the size of your yarn (i have used 2mm hook).

- Poly fiber fill

- Tapestry needle

- Safety eyes or flat back black beads for eyes (I have used 8mm flatback bead).

- Black embroidery thread

This pattern is written in US English terms and worked in continuous rounds unless stated otherwise.

ch - chain.

sc - single crochet.

dec - sc 2 together.

rep ** - repeat stitches between **.

Head and body:

Using pink colour yarn,

R1: 6 sc in magic ring (6).

R2: 2sc in each st (12).

R7: *sc in next 5 st, 2 sc in next st*, rep ** (42).

Stuff a little and fasten off leaving a long tail for sewing.

Assembling:

- Place the ears at the end of R3 spanning till the end of R8 on either sides of the head.

- If using flatback beads, place them between R10 and R11.

- Embroider the mouth and add in whiskers. For the mouth embroider a inverted v shape and a small straight line over that. Sew the whiskers one stitch apart from the side of the eyes.

- Place the forelegs at R14-15 on either sides.

- Place the hind legs a little slanting at R20-21 on either sides.

- Take a strand of lavender colour yarn and sew the stripes on forehead stripes from R2 to R6 and sewed the two side stripes at R15 and R17 of the body.

- Finally attach the tail at the back. I placed them between R21 and R22.

And your chubby lil cat is now ready.

 I really hope you guys like the tutorial. Have a great day! Much love :)

This is so cute and easy to follow, thanks so much for this! I am having a hard time making the ears triangular though, is there anything missing from the instructions there or am I just missing something personally? :)
